

PRODUCT DESCRIPTION

A releasing agent treated foil-bopp backing (Foil: 15u / BOPP: 30u), combined with a high performance Water based acrylic adhesive.

FEATURES

- ◆ High Peel Adhesion, Good Tack
- ◆ Perform Well in Both Warm & Cold Weather
- ◆ Excellent Sealing and Patching Performance
- ◆ Flexible & Durable, Conform Well to Irregular Surface

TYPICAL PHYSICAL PROPERTIES

PROPERTIES	METRIC
Bopp Film Thickness	30mic
Aluminium Thickness	15mic
Adhesive Thickness	30mic
Total Thickness	75mic
Peel Strength	≥10N/25mm
Tack Force	(1kg/steel,24hour) shift≤2mm
Elongation	≥3%
Apply Temperature	-20 ~ +120°C

TYPICAL APPLICATIONS:

HVAC industry for joining and sealing Foil-Scrim-Kraft Facing laminated fiberglass blanket / duct board joints and seams; joining and sealing flexible air duct seams and connections. General purpose holding, patching, sealing and masking applications.
